

Retail Industry

Over \$1 Million Dollars in
pure savings recouped

Why Choose Us

Uncovered an outdated and unused fire alarm point-to-point circuit. By identifying this circuit and negotiating with their provider, we were able to eliminate this and save our client \$78K per year

Consolidated all standard phone lines from five different carriers into a single, streamlined solution

Director of IT

We always knew the savings were there, but we never had the expertise or time to go after them with the tenacity that you (Prelude) did.

→ Enhancing Technology

By streamlining phone services, we were able to achieve greater efficiency and cost savings while still meeting their communication needs. This approach also enabled us to improve overall service quality and provide our client with a more reliable and effective communication system.

→ Optimal Results

Savings of over \$1 Million Dollars in our was recouped through a comprehensive telecom audit and optimization by the Prelude team
