

# Enterprise Level Representation for Social Service Nonprofits

*How a Small Organization Achieved Fortune 500 Level Advocacy.*

## The Story

A small social services nonprofit was facing reduced funding, rising costs, and limited representation with their communication providers.

Prelude conducted an assessment that delivered a significant credit, reduced costs, and provided a clearer structure moving forward.

### President & CEO

Six months after we had thrown our hands up, Prelude secured us a four year credit for a service. The cost reduction and visibility we have now are beyond what we thought possible.

## → Why It Mattered

The client is a small, three location nonprofit focused on helping children, not managing communication services.

Prelude brought experienced industry experts to their side of the table, ensuring their needs were properly represented and addressed.

## → The Outcome

- Credit equal to four years of internet service at one location.
- 27% overall cost reduction.
- Improved HIPAA compliance and reduced security risk.

An up to date inventory with greater visibility across all services and providers, delivered at a lower cost.
